

Enhance R Autumn 5-2-15+2% MgO+TE

A micro-granular, organo-mineral, bioactive fertiliser for fine turf

Vitax Enhance-R is a homogeneous micro-granular fertiliser, providing all essential turf nutrients, plus organic and bioactive components, to promote growth, stress resistance and root health. The turf's tolerance to (and recovery from) selective herbicides and growth regulators is maximised, resulting in a greener, robust sward.

Analysis (w/w)

Nitrogen (N)	5.0 %
Total phosphorus pentoxide (P ₂ O ₅)	2.0 %
of which soluble in water	1.5 %
Total potassium oxide (K ₂ O)	15.0 %
Total magnesium oxide (MgO)	2.0 %

Rates of Application

Apply at 15g/m² to 25g/m² (150 kg/ha to 250 kg/ha) from August to March when conditions are suitable.

Frequent application at the lower application rate is advised for maximum control of growth rate.

Higher rates of use give longer performance with reduced application frequency.

Storage Guidance

Store in a cool, dry, well-ventilated place protected from direct sunlight and humidity.

Conditions of Supply

All goods supplied by us are of high quality and we believe them to be suitable, but as we cannot exercise control over their storage, handling, mixing at use or of the weather conditions before during and after applications which may affect the performance of the goods, all conditions and warranties, statutory or otherwise as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us or re-sellers for any failure in performance, damage or injury whatsoever arising from their storage, handling application at use. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods.
