

ACCUPRO[®] DROP

The AccuPro DROP is a new professional drop spreader engineered for ultra-accurate application of grass seed, conventional release granular fertilisers and granular wetting agents.

ACCUPRO® DROP

The AccuPro DROP is a professional drop spreader engineered for ultra-accurate application of grass seed, conventional release granular fertilisers and granular wetting agents.

With the innovative SmartDial™ system for easy spreader setting adjustments, the AccuPro DROP provides durability, ease of use, and precise applications. It features a large stainless-steel hopper, a robust heavy-duty frame, pneumatic turf tyres, and an ergonomic extended handle. Additionally, front and rear lift handles make loading and unloading straightforward.

ACCUPRO® DROP

Key points

SmartDial™

For easy spreader setting adjustments.

Large stainless-steel hopper

Manufactured with a secure seal to prevent leakage, ensuring containment of products like creeping bentgrass.

Durable heavy-duty frame

Built for durability, withstands frequent use and harsh conditions, providing long-lasting reliability.

Ergonomic Handle

Designed for comfort, reducing operator fatigue during extended use.

Removable Rain Cover

Protects the product if being applied during adverse weather conditions.

Pneumatic Turf Tyres

Evenly distributes weight to prevent turf damage and ensure smooth mobility across various surfaces.

Open/Shut-Off Control

Simple control of material flow for operational efficiency.

Integrated front & rear handles

Enables safe and straightforward lifting, simplifying transportation and handling.

Three-year warranty

The AccuPro DROP comes with a three-year limited warranty.

ACCUPRO® DROP

Calibration

Calibration is factory set on the spreader.

Periodically check that the right and left sides of the spreaders outlet area are perfectly aligned.
A calibration key is supplied with the spreader.

ACCUPRO® DROP

Summary

The AccuPro DROP is a professional drop spreader designed for ultra-accurate application of grass seed, granular fertilisers, and wetting agents. It features the innovative SmartDial™ system for easy spreader setting adjustments, ensuring durability, ease of use, and precision.

The spreader is equipped with a large stainless-steel hopper, a robust heavy-duty frame, pneumatic turf tyres, and an ergonomic extended handle. Additionally, front and rear lift handles make loading and unloading straightforward.

With its combination of advanced features and reliable performance, the AccuPro DROP guarantees precision and ease for all your spreading needs, supported by a three-year limited warranty.
